

Town Of Manlius Highway Dept.

Snowplow Safety Presentation

*It is winter. The snow is falling, and kids are playing outside in the snow.
But do they know that they could be in danger... of snowplows?
Yes. Kids may not know it, but building forts, playing and sledding by
the road is VERY dangerous.*

*The Town of Manlius Highway Department has recognized this problem
and is willing to give a free presentation to your school, group, or club in
the Town of Manlius district, and talk about snowplow safety. Children
will get to see a real snowplow up close, and will also watch a video about
snowplow safety. All their questions about snowplows will be answered,
and they may even get a chance to sit in the driver's seat!*

For more information and to schedule an appointment, call:
