## TOWN OF MANLIUS POLICE DEPARTMENT

# Chief of Police

---

January 1, 2022

Dear Resident:

As we all emerge from the pandemic, our commitment to quality policing remains strong.

2021 included some great accomplishments for your police department. One of our greatest strengths continues to be our employees. Despite a significant decline in the pool of candidates, we were able to hire some great people in 2021 and continue our tradition of excellent policing. In addition, and related to excellent policing, the department received its ninth CALEA law enforcement accreditation award. The Commission on Accreditation for Law Enforcement (CALEA) is considered the gold standard of police accreditation and the department has been committed to this process since 1996. CALEA ensures that the Town of Manlius Police Department continuously follows best practices in law enforcement. TMPD is one of only a handful of law enforcement agencies in the state of New York to be decorated with such distinction.

Another significant accomplishment in 2021 was the continued growth and success of our Community Support Unit (CSU). CSU focuses on strengthening partnerships, identifying problems, creating solutions to those problems, improved communications, all in support of our community policing model and mission statement. I am so proud to work with all our great members.

2022 will be another exciting year, and I am honored to be your Police Chief.

Sincerely,

Michael J. Crowell

The Town of Manlius Police Department’s continued goal is to ensure the safety of all motorists operating within the jurisdiction. The department utilizes traffic enforcement as a tool to reduce personal injury and property damage crashes involving vehicles as well as pedestrians and cyclists on our roadways.

The Town of Manlius Police Department maintains a multifaceted program to address aggressive driving traits. One of the ways this agency addresses these traits, is to use statistical data from crash investigation reports. These reports are analyzed monthly for causational factors, locations, and times of occurrence and the data is then vetted for patterns. After a comprehensive review, a selective enforcement campaign then targets the top causes, locations, and times where preventable motor vehicle crashes (MVC’s) are occurring. The program also looks at all neighborhood traffic complaints and targets these areas as well. These types of operations include public and social media campaigns, roadway signage, and strict vehicle and traffic enforcement. Aggressive driving includes: failure to yield the right of way, following too closely, unsafe lane change, unsafe passing, disregard of traffic signals and signs, using electronic devices while driving, failing to signal and driving under the influence of alcohol and/or drugs. Despite having to work around COVID related issues, the monthly analysis of crash data was maintained and this agency remained involved in statewide campaigns such as “Click It or Ticket” and other aggressive or distracted driving related details.

As seen in many different areas of our agency, COVID has played a large part in motor vehicle collision data and traffic enforcement efforts. A review of the total reported accidents for 2021, reveals an increase of 57% in preventable MVC’s in comparison to the total number of preventable MVC’s in 2020. This increase is most likely due to the increase in the amount of daily traffic as a result of business and school re-opening, and more people back to working from their place of business. Traffic tickets issued decreased slightly over the number of tickets issued in 2020 by 7%.
